REPAIR WARRANTY POLICY

Subject: Warranty Coverage for Repairs and Services

Quality Armature stands behind the quality of its workmanship and the parts and components repaired by our company. The following warranty terms apply to repairs performed by Quality Armature.

1. Parts and Component Repair Warranty – 30 Days

All individual parts and components repaired by Quality Armature, including parts removed from complete motors and sent to us for repair, are covered by a **30-day warranty** from the date the repair is completed. This warranty covers defects in the repair work performed by Quality Armature under normal operating conditions.

This warranty applies only to the specific parts or components repaired by Quality Armature. It does not cover unrelated components, pre-existing conditions, or failures resulting from misuse, improper installation, abnormal operating conditions, or lack of proper maintenance.

2. Complete Motor Repair Warranty – One Year

All complete motor repairs performed by Quality Armature are covered by a **one-year warranty** from the date the repair is completed. This warranty covers defects in workmanship and

materials related to the repair performed by Quality Armature under normal operating conditions.

3. Warranty Conditions

Warranty coverage is subject to inspection and confirmation by Quality Armature that the issue is related to the original repair or a covered part. Damage or failure resulting from misuse, improper installation by others, unauthorized modifications, abnormal operating conditions, or lack of proper maintenance may not be covered.

Any warranty claim must be reported to Quality Armature for evaluation. Quality Armature reserves the right to inspect the equipment before determining whether the repair or replacement is covered under this warranty.

This warranty applies only to the work and parts covered by the original repair and does not extend the warranty period unless otherwise agreed to in writing.

Thank you for choosing Quality Armature. We appreciate your business and your trust in our company. We remain committed to providing dependable repair services, quality workmanship, and customer satisfaction.

Sincerely,

Michele Rubino

Owner
